

THE CORNETS Lyrics

TRY

Strophe 1:

You always complain
Your life is so unjust and you could only cry
But you only sit around
And you've never started a try

You always mourn
Everything sucks and everything is not right
Noone stands herer on/by your side
But you never stand up and fight.....
never stand up and fight.....never stand up and fightand
fightand fight

Ref.:

That's not allright, That's not allright
You never blame yourself
That's not allright, That's not allright
And you've never really tried
Stand up and fight

Strophe 2:

You tell me something
About fault and guilt
And you tell me anything
About the responsibility of today

You say you're a victim
And not guilty for your life
You say you can't be blamed
But that's wrong you've never tried.....
You've never really tried You've never really tried...
..you've tried...you've tried

Outro:

That's not allright, That's not allright
That's not allright
That's not allright, That's not allright
That's not allright

That's not allright
That's not allright, That's not allright
